

Size Selection

The Lettie Skirt is designed to fit at your natural waist. The waistband should fit securely at your waist without pinching or digging into your body, with approximately 13 1/2"(34.3cm) of ease at the hips.

The skirt is drafted for a person 5'6"(167.7cm) tall and intended to hit at your mid-calf. This length is easily adjustable to work with your height and length preferences.

It is recommended that you select your size based on your waist measurement. The elastic back allows for flexibility in the amount of waist ease, and the skirt can be worn lower on your waist by adjusting the length of the elastic inserted into the back.

If you are between sizes, select the size closest to your waist measurement or choose your size based on your ease preference. If your waist is two or more sizes smaller than your hips, it is recommended to select the size in the middle.

When reviewing the finished garment measurements, you will notice that the finished waist measurement does not fit over the hips. The partial button placket provides an additional 14" (35.6cm) of length to accommodate putting the skirt on.

Body Measurements: inches (centimeters)

	A	B	C	D	E	F	G	H	I	J
Waist	25 (63.5)	26 (66)	27 (68.6)	28 (71.1)	29 (73.7)	30 (76.2)	32 (81.3)	34 (86.4)	36 (91.4)	38 (96.5)

Waist: Measurement taken without elastic inserted in back - the button placket provides additional room to get the skirt on over your hips.

Hip: Measurement taken approximately 7" (17.8cm) down from the top of the waistband.

Sweep: Measurement of hem circumference.
